ParityBit Academy — Website & Brochure Requirements Brief

Prepared by: ParityBit Security
Date: April 1, 2026
Deadline: Friday, April 4, 2026
Contact: paritybitsecurity.com

---

1. Project Overview

ParityBit Academy is a cybersecurity education platform offering a comprehensive "Zero to Hero" masterclass. We need **two deliverables**:

1. **Marketing Landing Page** — A single-page scrollable website designed to convert visitors into enrolled students.
2. **Digital Brochure** — A visually polished PDF brochure for distribution via email, WhatsApp, and social media.

> ***Note:*** *This is NOT an LMS build. We already have a functional learning management system (course player, dashboard, student portal). This project covers* ***only the public-facing marketing landing page*** *and brochure.*

---

2. Target Audience

Segment	Details
Primary	College students & fresh graduates (18–25) in India looking to break into cybersecurity
Secondary	Working IT professionals (25–35) looking to upskill or transition into security roles
Tertiary	Career changers from non-tech backgrounds interested in cybersecurity
Geography	India (primary), global (secondary)
Language	English + Hindi (course content is bilingual)

---

3. Reference Website

Cisco Networking Academy — https://www.netacad.com/

Key elements we admire:

- Clean, professional, trust-inspiring design
- Strong hero section with clear value proposition
- Course catalog presentation
- Mobile-first responsive design
- Emphasis on outcomes (jobs, certifications, skills)

---

4. Landing Page Requirements

4.1 Page Structure (Single-Page Scroll)

The page should be a **single continuous scroll** with the following sections (top to bottom):

#	Section	Purpose	Key Content

1	**Navbar**	Navigation	Logo, links (Curriculum, Pricing, FAQ), Login/Enroll CTA button
2	**Hero**	First impression & conversion	Headline, subtext, "Enroll Now" CTA, background visual, stats (800+ students, 12 modules, 70 lessons, 2-month internship)
3	**Trusted By**	Social proof strip	Company logos/names where alumni work: Deloitte, Codec Networks, NASSCOM, ICT Academy
4	**What You Get**	Feature highlights	4 cards: Self-Paced Learning, Live Weekly Sessions, Applied Internship, CyberMasteryX Certification
5	**Program Overview**	What the program covers	Dark section with text + visual. Highlight: offensive security, defensive operations, incident response, hands-on labs
6	**Feature Grid**	Detailed benefits	6 items in 3-column grid: 70 Video Lessons, Hands-On Labs, Capstone Project, SOC & Pentest Roles, MITRE ATT&CK, Industry Tools (Splunk, Wireshark, Nessus, Metasploit)
7	**Instructor**	Build trust	Profile card for Harshit Bhardwaj — certifications: CHFI, eCIR, ISO 27001, CCNA, ISC2 CC, AWS Cloud. Notable achievements section
8	**Curriculum**	Show depth	Collapsible/accordion module list. 12 modules with lesson counts. Must feel comprehensive
9	**Testimonials**	Social proof	Carousel/slider with 5+ student testimonials. Name, photo, star rating, quote
10	**Pricing**	Conversion	Single pricing card: ~~Rs.5,000~~ -> Rs.1,000 (80% off, limited time). Checklist of included items. Prominent CTA
11	**FAQ**	Objection handling	6+ expandable accordion items (Who is this for?, Prerequisites?, Self-paced or live?, Internship details?, Certification?, Refund policy?)
12	**Final CTA**	Last conversion push	Dark banner — "Ready to Start Your Cybersecurity Journey?" with Enroll Now button
13	**Footer**	Information	4 columns: Brand/about, Quick Links, Program Info, Contact

4.2 Enrollment / Payment Flow

- "Enroll Now" button opens a registration/payment flow
- Payment integration will be added later (Razorpay)
- For now, the CTA should redirect to a signup/login page
- Post-payment, user is redirected to their student dashboard (separate LMS, already built)

4.3 Responsive Design

- **Mobile-first** approach
- Must look excellent on: iPhone, Android phones, iPad, laptop, desktop
- Navbar should collapse to hamburger on mobile
- Hero should stack vertically on mobile
- Feature cards should be single-column on mobile

---

5. Color Palette & Design Direction

Primary Palette

Color	Hex	Usage
Deep Navy	`#0A0F1E`	Hero background, dark sections, navbar
White	`#FFFFFF`	Content sections, text on dark backgrounds
Blue	`#3B82F6`	Primary accent — buttons, links, highlights, icons
Violet/Purple	`#7C3AED` to `#8B5CF6`	Secondary accent — gradients, hover states
Slate	`#64748B`	Muted text, descriptions

Gradient Directions

- Hero & dark sections: Deep navy to dark purple/violet
- Buttons: Blue to violet gradient (optional)
- Background accents: Subtle purple/blue gradient orbs or glows

Design Mood

- **Professional yet modern** — not corporate-boring, not startup-flashy
- **Dark hero + light content** — dark navy hero/navbar transitioning to white content sections
- **Subtle animations** — scroll reveals, hover effects on cards, smooth transitions
- **Trust-building** — clean typography, consistent spacing, professional imagery
- Cybersecurity-themed imagery: server rooms, code, network visualizations (violet/blue tones preferred)

---

6. SEO Requirements

Target Keywords

Priority	Keywords
High	cybersecurity course India, ethical hacking course online, cybersecurity certification India
High	penetration testing course, SOC analyst course India, cybersecurity training online
Medium	learn cybersecurity from scratch, cybersecurity masterclass, cyber security course with internship
Medium	VAPT course online, Splunk training India, network security course
Long-tail	best cybersecurity course for beginners India 2026, affordable ethical hacking course with certificate
Long-tail	cybersecurity course with placement, online cybersecurity course with internship India

SEO Technical Requirements

- Semantic HTML5 structure (proper h1, h2, h3 hierarchy)
- Meta title and description optimized for primary keywords
- Open Graph tags for social sharing (WhatsApp, LinkedIn, Twitter)
- Schema markup (Course, Organization, FAQ, Review)
- Fast page load (Core Web Vitals compliant)
- Image alt tags on all images
- Sitemap.xml and robots.txt

- Mobile-friendly (Google mobile-first indexing)

---

7. Brochure Requirements

Format

- **Digital PDF** — optimized for sharing on WhatsApp, email, and social media
- **Size:** A4 or Letter
- **Pages:** 2-4 pages max

Content to Include

Page	Content
Page 1	Hero banner — ParityBit Academy branding, headline, key stats
Page 2	What You Get — 4 key features, program highlights, tools covered
Page 3	Curriculum overview — 12 modules listed, instructor profile
Page 4	Pricing, testimonials, CTA with QR code to landing page

Brochure Design

- Match the website color palette (navy, blue, violet, white)
- Professional but eye-catching
- Include QR code linking to the landing page
- Suitable for printing as well as digital distribution

---

8. Course Content (For Reference)

12 Modules

1. **Introduction** — 5 lessons (Hindi + English versions)
2. **Linux & Python Fundamentals** — 7 lessons (Hindi + English versions)
3. **Foundations of Information Security** — 3 lessons
4. **Application Security & Penetration Testing** — 9 lessons
5. **Network Defense & Penetration Testing** — 11 lessons
6. **Data Protection & Cryptography** — 3 lessons
7. **Governance, Risk & Compliance (GRC)** — 6 lessons
8. **Securing Emerging Technologies** — 4 lessons (AI/LLM security, IoT)
9. **Security Operations Center (SOC)** — 2 lessons
10. **SIEM Architecture & Hands-On Splunk** — 3 lessons
11. **RCA & Cyber Breach Investigation** — 3 lessons
12. **Bonus: Job Prep Module** — 4 lessons (resume, portfolio, CTFs, projects)

Total: 70 video lessons | Bilingual (Hindi + English for Modules 1-2)

Key Differentiators to Highlight

- 2-month applied internship included
- CyberMasteryX certification
- Bilingual content (Hindi + English)
- Instructor with CHFI, eCIR, ISO 27001, CCNA, ISC2 CC, AWS Cloud certifications

- Hands-on labs with industry tools (Splunk, Wireshark, Nessus, Metasploit, Burp Suite)
- 80% discount (Rs.1,000 instead of Rs.5,000)
- 800+ students already enrolled

---

9. Technical Notes

Item	Details
Domain	paritybitsecurity.com
Current hosting	Vercel (frontend), Hostinger VPS (videos/backend)
LMS	Already built — Next.js + Supabase. NOT part of this scope
Payment	Razorpay (to be integrated later — just keep CTA buttons ready)
Analytics	Google Analytics / Vercel Analytics (to be added)
Video hosting	Self-hosted on VPS at paritybitsecurity.com/videos/

---

10. Deliverables Summary

#	Deliverable	Format	Deadline
1	Marketing Landing Page (responsive)	Live website / code	Friday, April 4, 2026
2	Digital Brochure	PDF (print + digital ready)	Friday, April 4, 2026
3	Logo concepts (optional)	SVG + PNG	Friday, April 4, 2026

---

11. What We Provide

- Course content details (modules, lessons, descriptions)
- Instructor bio and certifications
- Student testimonials
- Pricing information
- Domain access and hosting setup
- Any additional brand assets as needed
